HERE'S the POINT

By SPENCE HELD

An Ocean Beach organization turned in a neatly typed press release to the Peninsula News several days ago, describing plans for a big function.

The punch line read like this: "Many visiting dignitaries will take port in the evening's program."

I wouldn't be surprised.

They're tearing down the old State College this week, and Jimmy Hildreth died in Oakland.

No connection, of course, but if anybody symbolized the fighting spirit of the little college at Park Blvd. and El Cajon Ave., it was Jimmy Hildreth.

He was a four-sport star at State—football, basketball, baseball and track. Weighing about 170 pounds, he was one of the "iron men" who played 60 minutes of a football game during the 1920's, unless he was injured.

* * *

Werner Petersen, of 1306 Clove St., probably remembers the State-Pomona game of 1927. He played next to Hildreth in the line . . . I was a cub reporter on the Tribune and wangled the Saturday afternoon off by posing as a football expert and covering the game.

Pomona had chartered the steamship Ruth Alexander for the trip south . . . As the big ship glided alongside Broadway pier at midnight Friday, a band of Aztecs split the night with wild yells of welcome. Hundreds of Pomona students in pajamas rushed up on deck. They gave a yell for State, then sang "Hail Pomona."

The two student bodies held a rally in the California Theatre Saturday morning . . . Pomona, with a long and illustrious football history, was confident of victory over the upstart Aztecs.

* * *

Some 8,000 spectators saw the game in Balboa stadium. San Diego lined up as follows: Hal Hansen and Hollis Fitz, ends; Werner Petersen and "Ike" Walton, tackles; Jimmy Hildreth and Don Ault, guards; Charlie Smith, center; Barkham Garner, quarterback; Guy Fox and Kenny Johnson, halfbacks, and Capt. Paul Mott, fullback.

Coach C. E. Peterson had drilled his purple-and-gold-clad Aztecs well, They scored two quick touchdowns before the Pomonans knew what hit them; however, the visitors rallied and their superior reserve strength finally paid off.

Hildreth went out with injuries . . . Petersen played the entire game, as I remember. Final score: Pomona 18, State 12.

Now that UCLA is an also-ran (no Southern California team ever went anywhere in the rain and mud), let's concentrate on USC. The Trojans have four San Diego County boys on their squad—Dick Bronson, Grossmont High; Bill Patten, San Diego; Ernie Merk, Helix; and C. R. Roberts, Oceanside.

I seem to remember that fella Merk getting in the Pointers' hair two or three years ago.

Sports Arena Project Looms As Possibility

Construction of a sports arena on the filled-in acreage of Mission Bay Park, adjoining Ocean Beach, loomed as a strong possibility this week.

Harry La Dou, O. B. Chamber of Commerce president ,attended a meeting of the Mission Bay Park Commission Monday and urged the commission to consider the local site for such a development.

Later, John McGhee, park director, said that a group of out-of-town and San Diego men has been studying the site and a proposal is expected to be offered to the park commission within a few weeks.

La Dou pinpointed the location as "between the south jetty of the flood channel and W. Point Loma Blvd., adjoining Ocean Beach."

He said such a site would have plenty of approaches and adequate parking. He favors a public sports area for both indoor and outdoor sports—baseball, skating, basketball, tennis, etc.

La Dou also broached the question of a bridge across the channel to Mission Beach to replace the one which was removed several years ago. He said the park commissioners claimed such a bridge would require approaches several blocks in length ,to provide the necessary height, making it prohibitive in cost and taking in too much area.

"I still believe," said La Dou, "that it's possible to build a suitable bridge and the Chamber will continue to work for such a project."

Rotary Hears Talk On Mission Bay

John McGhee, director of Mission Bay Park, told the Point Loma-Mission Bay Rotary Club Friday that by 1970 the City expects to be collecting $1,250,000 in revenue from private leases in the park. He also estimated that it will cost the City $500,000 a year to operate the park.

McGhee pointed out that 25 percent of the project is completed, from a recreational standpoint, and that 55 percent of the money toward completion has been spent. He explained that most of the development to date is in the non-recreational category of bridges, dredging, roads, land purchase, sewers, etc.

According to the speaker, 2.8 million dollars is to be supplied toward completion by next July, and the City then must provide 8½ million dollars and finish the work in the next five years. Final development should be seen in 1963.

He stressed the role of private capital investment as a major factor in successful development of the project. About $30 million in private capital is expected to be spent for boating facilities, restaurants, guest houses, motels, etc.

However, planning will guarantee that 75 per cent of the beach shoreline wil lbe reserved for public use, it was said.

Charles G. Jester, of Pacific Telephone Company's information office, will speak on the subject, "Designed For You," at tomorrow's Rotary meeting in Kona Kai Club. Harry La Dou will be program chairman.

Point Loma To Play Chula Vista

Point Loma High School, which held its own in the big football Carnival last Friday, will take on tough Chula Vista High in a non-league game tomorrow at 8 p.m. in Balboa stadium.

The locals will be underdogs in this one but might pull a surprise. Quarterback Bill Harvey has been throwing the ball well to end Fred Jones and other receivers, and with a little luck could connect for a couple of big ones—if he gets enough protection from the onrushing Chula Vista linemen.

In last Friday's Carnival, the Pointers played Kearny to a scoreless deadlock and tied Lincoln, 6-6. Harvey completed a series of passes to Jones, Eddie Sada and Bill Meyer in the Lincoln 'game" and capped the drive with a scoring toss to Jones in the end zone.

On defense, Loman linemen Nick Verdusco, Sheldon Spicer and Doug Stephenson looked good.

The "West" combine of Point Loma, La Jolla and San Diego defeated the 'East"—Mission Bay, Kearny, Lincoln and Hoover—by a score of 13 to 12.

Approximately 16,000 persons witnessed the Carnival. The Point Loma band and girls' drill team participated in the pageantry.

DUCKS UNLIMITED TO SCREEN SENSATIONAL WILDLIFE FILMS

One of the finest sound-and-color wildlife films ever screened in San Diego will have its debut Monday, Oct. 3, at the 12th annual Ducks Unlimited party in El Cortez Hotel.

"Sunrise Serenade" portrays the mating ceremonies of the prairie chicken, sage grouse and sharptailed grouse. Such a spectacle is rarely viewed by human eyes.

"Sunrise Serenade" holds special interest here since the sequence showing Indians in full regalia doing the prairie chicken dance was filmed on a Canadian reservation by Ormal Sprungman, of 4486 Point Loma Ave., while doing photographic work for Ducks Unlimited.

The film will share equal billing with the new movie, "Each Year They Come," revealing the work of Ducks Unlimited in the duck-breeding areas of Canada.

Among the active Ducks Unlimited workers in the Peninsula area are Ted Starke, 310 San Fernando, secretary of the S. D. chapter; Wilbur Kelly, 693 San Fernando, former chapter chairman, and Dick Grihalva, 940 Scott St.

Grihalva heads the committee on prizes. Several thousand dollars worth of valuable prizes, donated by merchants, will be given away Monday.

DIALING HABITS IMPROVE— WRONG NUMBERS DROP 40%

Local residents still aren't letter-perfect when it comes to dialing, but the number of incorrectly dialed calls has dropped 40 percent in the past four months.

That was the date telephone employees started an intensive campaign to help telephone users in the San Diego metropolitan area help themselves.

Total mistakes for all local communities then was around five percent of all calls, or around 60,000 errors a day. This figure was tops for the nation.

Don Lewis, district manager, said the number of calls the telephone company has received from people awakened in the middle of the night, only to say, "Sorry, but you have the wrong number!" has dropped accordingly.

He pointed out the general public is inconvenienced the most by dialing mistakes, since few of them reach an operator.

The telephone company plans to continue much of its public information program. Highlights are:

1. Customer instructors will personally call many new telephone subscribers and explian dialing techniques. Others will call numbers where an unusually high number of incorrect dialing originates.

2. Instructors will check dialing habits from special exhibits set up in markets, banks, and a number of other public places.

3. Service advisors will continue personal contacts with businesses having large groups of telephone users. These women also contact PBX telephone operators.

What's the secret for letter-perfect dialing?

"Concentration, and a spirit of wanting to be good neighbors," the district manager said. "If everyone could give themselves a shot in the arm that would make them concentrate white dialing, this problem could be overcome overnight."

Another helpful aid is to look up all numbers you are not sure of in the telephone directory, jot the number down, then dial carefully.

Inspired By Knights Of Yore

It's a long call from King Arthur's Round-Table Knights to today's mechanical products, but the similarity between them is more than just coincidence.

That's the opinion of Brooks Stevens, noted industrial stylist, who here points out the evolutionary design linking a modern outboard motor with the helmet worn by armored knights.

"Medieval artisans were experts in functional design," Stevens explains, "and this styling is being recaptured in today's industrial motifs. A typical example is Johnsons' new thirty h.p. outboard, a chrome-trimmed custom-styled unit which, appropriately enough in view of its design origin, is called the 'Javelin'."

"We call it 'advanced' styling—but it's a modern adaptation of the art of the ancient craftsmen."

The Javelin is one of nine 1956 models in which the manufacturer places emphasis on style and color.

Auburn, located in Placer County, is reported by the National Automobile Club to have been very active in the gold rush days and to have many of the old buildings still standing.

What to give for Christmas presents is being solved very nicely by a class of ten girls, who each Saturday work in the ceramic art in the Rimel Studio at 2165 Catalina Blvd.

When we dropped by on Saturday we found Barbara Fulkerson and Sandra Ryan busily engaged in putting the finishing touches on Santa Claus figures and a fluted bowl for floating flowers.

Pansy Rimell opened her studio on August 1st and already local people are finding it a place of interest and the classes for children between the ages of 12 and 15 years old are well attended.

Miss Hazel Hartley and Miss Marg Abraham of Utah and Wyoming are new teachers this year at Loma Portal School and are making their home in Ocean Beach in the 4800 block on Brighton Avenue.

HEALTH FOR ALL

"Love, to be taken regularly in large doses." Those were the words on the prescription blank the doctor handed to Jimmy's mother. Jimmy had been suffering stomach upsets.

Children have stomach disorders caused by emotional upsets, just as adults do. Many of these illnesses, doctors believe, begin because the children do not get enough love and are surrounded by an atmosphere of irritability, impatience, and anger.

Many cases of infantile colic are also thought to be largely emotional in origin. Colic frequently developes in babies whose mother are cross and impatient.

A baby's greatest need is for the sense of security that affectionate mothering gives him. When a baby becomes "colicky", he may be expressing his feeling of insecurity. More affectionate and patient mothering is often the best remedy.

"Knots in Stomach"

In older children, "bottled up" emotions may also show themselves in real physical illnesses. Perhaps the child may complain only of "knots in my stomach" or "cramps". But peptic ulcer and ulcerative colitis are not uncommon.

Children who develop these conditions may be very well-behaved youngsters who are unable to express their angry feelings. Their troubles are often traced to the fact that their need for security and love was not met in infancy.

Jimmy's trouble started the spring he became a pitcher for the Tigers, his Little League team. He was a good pitcher. But he began to be afraid to play for fear of losing. He felt that his parents were proud of him and loved him when he won. So the stomach upsets arrived with every game.

The doctor was able to recognize the emotional basis of Jimmy's trouble. He was able to show the parents that their good little boy who was so eager to please was not a happy child. They learned to be more patient with his boyish failures, and to show him that their love did not depend on his behavior. Jimmy's stomach trouble was cured by love.

MULLING WITH MULLER

By Edna M. Muller

Here I go again! Each year I sound off with enthusiasm after viewing the model cars on display from boys throughout the country (ages 12-19) who have entered their models in the annual Fisher Body Craftsman's Guild competition! Not only because some of these "dreams" are unbelievably magnificent but the imagination and ingenuity with which these youths worked to hurdle problems are really amazing! For example, some used pins to make wheel spokes, or buttons and rhinestones for hub caps, metal kitchen drawer handles for bumpers, red caps from toothpaste tubes for taillights, miniature railroad track for chrome strips, or wire mesh for egg-crate grilles. You get the impression that most of these cars are made of metal instead of wood because of the cars' high metallic gloss but actually these boys apply as many as 20 to 30 coats of paint and lacquer, carefully sanded and rubbed with compounds, to produce the beautiful metal-like smoothness.

A total of $70,000 will be given to the boys having the best models for State and Regional awards, and from the regional groups the best eight model cars will be selected for winners of the university scholarships amounting to an additional $20,000. Since the Craftsman's Guild was organized twenty-five years ago more than $1,000,000 has been awarded to youths in university scholarships and cash awards!

Ever notice that when the kiddies are dressed in their best bib and tucker and you're out for a drive you always come upon one of those trucks that sell frozen popsicles or ice-cream-on-a-stick? While the youngsters get a gleam in their eyes you get a sickening feeling in your tummy fearing accidents with quick-melting ice cream! We've found that by cutting a hole in the center of a paper plate and then inserting the stick — soiled fingers and clothes can usually be eliminated.

Writes Postcards In Yankee Stadium

Yankee Stadium in New York is a fine place to watch baseball games, drink pop, and eat hot dogs. Now, it seems, it's also a good place to write post cards to the drooling folks back home, the travel-hungry tribe of neighbors and the less fortunate friends.

Such a card arrived from Mr. and Mrs. Al Withers, 4567 Bermuda Ave., who are circling the USA, leaving New York shortly for Washington, D.C., Florida, New Orleans, Texas and home.

While in Detroit Mr. Withers visited his brother who had recovered recently from a cancer operation at the Henry Ford Hospital. He had the same surgeon and operation as the one described in the July 4 issue of Time Magazine.

Tips on Touring

By Carol Lane
Women's Travel Authority

Did you drive the last mile home from your vacation with the disheartening thought that it would be another year before the next one? Half of the pleasure you get from a good vacation is in reliving it after you're home. So, don't tuck all the souvenirs away in a deep dark closet — it's a sure way to get the post-vacation blues. You can beat the blues by organizing family projects to make your memories last.

Get the children busy pasting up post cards they collected to hang in their rooms. Encourage them to make a scrap book of matchbook covers, menus, brochures and pictures they accumulated. A map, drawn in the front of the scrapbook, with all the places visited clearly marked and colored, will add to its attractiveness. That extra shelf in the bookcase can be used to display the shells, rocks, pine cones and other items children love to bring back. Many schools have "Show and Tell" classes where each youngster relates what he did on vacation. The scrapbook will help your child to become the best travel lecturer in his class.

Telling fish stories will be easier for dad if the big one that didn't get away is mounted and hung on the wall as proof. The movie or slide projector should be kept in an accessible place, so it won't be a chore to show films taken on your vacation.

Your china closet will be the envy of the bridge club if you make part of it a show case for cups, pottery, silver, and figurines you purchased. Make labels for your souvenirs by printing on place cards the name of the shop and the city where you purchased each item.

A vacation enjoyed is a vacation worth remembering.

Out-Of-Town Fella Wins Derby Fishoff

Most successful Yellowtail Derby in the nine-year history of the Junior Chamber of Commerce sponsored event came to a close last Saturday after a highly successful fishoff in which Larry Zacker, Duarte, was the winner and Ed Ries, Palm City, the runner-up.

Zacker's 22 pound 14 ounce yellowtail, caught at North Coronado Islands from the Worrier VII, was one and three-quarters pounds heavier than the 21-2 bagged by Ries from Olde Ironsides. Zacker's prize was a Ford sedan and Ries' a house trailer.

I nall, the derby finalists accounted for 78 yellows and one bluefin tuna. Other prize winners were: 20-12, M. Rochmes, San Diego; 20-10, Oscar Rocha, San Diego; 20-9, H. D. Wilbur, Bostonia; 20-6, Nathan McCarty, Yuma; 19-14; Sam Musashi, Indio; 19-13, George Willett, Inglewood.

In the 24 weeks of the derby, contestants rolled up a record catch of eligible fish—41,000 yellows, 1201 bluefin tuna, and 22,260 albacore.

Close of the derby may mean less stress on yellowtail and more on all-around fishing, although the usual heavy fall run of yellows may again steal the show.

Junior Needlework Guild Aids Needy

The Junior Needlework Guild of America invites young people's groups to help in its program of "New Garments for the Needy."

Camp Fire Girls, Girl Scouts, 4-H Clubs, Boy Scouts, Job's Daughters, church, club and school groups work with the Guild to supply their local welfare agencies and institutions with layettes for babies; warm, practical clothing for school children; bright pajamas and gowns and stuffed toys for crippled children and shut-ins.

It's real community service when you aid your Branch of the Needlework Guild, and the membership "dues" are only two or more articles of new clothing a year.

The annual "Ingathering" for the San Diego Chapter will take place Wednesday, October 12 at Park Blvd., Methodist Church 4085 Park Blvd. Last year Camp Fire Needlework Junior members alone gave over 500 new garments to this project and so far this year Point Loma Branch has collected 80 items.

You are especially invited to join the Junior Needlework Guild during National Membership Week, October 2-8. Contact the junior chairman of Point Loma Branch. Mrs. Melvin Long 3936 Altascadero St., AC-3-3627.

Tips on Touring

By Carol Lane
Women's Travel Authority

Safety begins at home, but don't leave it there. Even though you're a good driver, constant adherence to these six safety steps will reduce your chances of highway accidents.

1. CHECK YOUR CAR—Many accidents could be avoided by good car maintenance. Be sure the lights, brakes, horn and wiper are working right. Shell Oil service station experts will be glad to check these things, as well as tires, gasoline, oil and water and to make any needed repairs.

2. CHECK YOURSELF—Be in the right frame of mind for driving. Don't drive when you're tired, in an emotional stew, or over-excited. Let someone else take the wheel if you're not perfectly sure you should drive.

3. KNOW DRIVING CONDITIONS—Keep aware of the hazards of wet, icy, or fogbound roads. Exercise more care during the rush hours, in the tricky light around dawn and dusk and on weekends, when traffic is heaviest.

4. WATCH ROAD SIGNS—Road markers are placed on highways to aid you—take advantage of them. They'll warn you of approaching hills, curves, crossroads and other hazards.

5. PAY ATTENTION—Don't forget that *you're* driving the car. Someone else can point out the interesting sites, dial the radio or adjust the ventilation.

Speaking of

PUBLIC SAFETY

Modern street lighting is a powerful force for safety after dark, according to reports from cities throughout the nation to the National Street and Traffic Safety Lighting Bureau. For example:

- In Dayton, O., service and buildings director George F. Baker said, "A lighted city is a live city." Last year, when Dayton's extensive street lighting modernization program was nearly complete, traffic deaths during the hours of darkness dropped 41 per cent.
- Police Chief Frank Evans of Peoria, Ill., reports, "Crime definitely is down in Peoria. There are no shadows for the criminal to hide in with the modern lighting system. There's no doubt of its effectiveness."
- Total traffic accidents in six Connecticut communities, after modern relighting of streets, dropped from 253 to 192, instances of property damage fell from 203 to 163, and the cost of these accidents declined from $106,000 to $46,000.
- From El Paso, Tex., Police Chief Risinger declares, "We don't need statistical evidence to show the value of street lighting on the south side. You drive the holdup men and the assaulters off the street as soon as you light them."
- Police Chief Roland R. Kelley of Fort Lauderdale, Florida, believes modern new street lighting will reduce traffic accidents to a minimum. Relighting the main traffic artery through town reduced accidents on that street more than 50 per cent!

The experience of these and many other cities, the Lighting Bureau declares, establishes the tremendous importance of modern street lighting for protection against night crime and traffic accidents David Baldwin, National Safety Council spokesman, says, "Properly designed, properly installed and properly maintained street lighting will save lives, and we need much more of it than we have now."

WHAT'S DOING
D. W. Lewis, your Telephone District Manager in San Diego

School children visit "Telezonia"

If your youngsters should come home from school some day soon talking about a fabulous land of puppets, here's what it's all about. An entertaining color motion picture called "Adventure in Telezonia" is now available to the elementary schools in this area. The movie is part of a special kit we telephone people have worked out at the request of teachers and with their assistance.

We lend the kit to schools to help children learn how to use the telephone correctly. This is important. For the kind of telephone service you enjoy depends a lot on the way you and others use the phone. So the good telephone habits "Telezonia" is teaching school children will help make telephone service better and more useful for everyone. Pacific Telephone works to make your telephone a bigger value every day.

Away-to-school days needn't "break up" a family

Maybe there's a young man or woman in your family who's going away to school this fall. If so, you can still stay in close personal touch with each other, you know. For it takes just moments to travel from home to campus, or campus to home, by telephone. And a quick glance at the rates in your telephone book will show you how little it costs. Why not let low-cost long distance make family reunions a frequent event during the school year ahead.

* * * * *

The Blood Bank plays a vital role in the health and well being of the entire community.

Telephone Company employes recognize this fact and actively demonstrate their belief in this program by contributing regularly to the Community Blood Center.

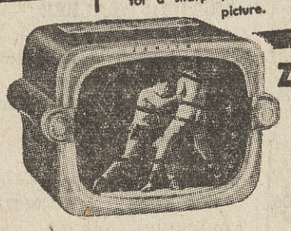

We think it is important to maintain a planned program of participation so regularly scheduled visits are made to the center.

Our aim is to maintain a sufficient supply of blood on deposit to assure the availability and the quantity necessary to care for the needs of our employees and their families. At the same time we can take pride in supporting a program that is so important to our community and nation.

Shades of Davey Crockett

Photos: Canadian National Railways

And that "B'ar"? He's the little guy hiding behind a tree. FNS

September is that part of the year which can only mean one thing to many Californians . . . the State or County Fair. The National Automobile Club advises those driving to take along an extra set of keys. Many motorists have found themselves stranded far away from home because they neglected this essential item.

Eighty per cent of the passenger car trips made in the United States are under ten miles, according to the National Automobile Club.
